Setting up a snow family	50
Wrapping Xmas presents	51
Rehearsing the dragon dance	52
Answers	53–64

Preface

Hidden Pictures, a series of four books, is produced in the belief that not all learning is text-based. Learning occurs with every human activity. It is especially effective when the activity is purposeful and focused while at the same time exciting and pleasurable.

Solving hidden pictures puzzles is just this kind of activity. Besides being enjoyable, it develops figure-ground perception and improves the ability to establish object constancy and size relationships. Educators have shown that working on such puzzles can also enhance a child's attention to detail, reinforce good work habits, increase both word and general knowledge and aid in developing self-confidence.

With guidance, this potential can be realized. At the start of the activity, the child could be told to look at the big picture and describe the scene as a whole—that is, say what the picture shows or is about. Then he/she could be encouraged to talk about the details. Finally, the child's attention could be drawn to the things illustrated in the margins and he/she asked to identify them in the big picture.

With time and practice, the child could become quite expert at solving the puzzles and would have kept him/herself entertained while he/she was at it!

Making music at home

Can you find these things in the big picture?

Playing our recorders

Look for these things in the big picture.

drinking straw

toothbrush

torch

needle

Hidden Pictures

This series of four books promises hours of fun and loads of benefits for all the family!

Each seek-and-find activity can be done individually as a pastime, or played as a game with a partner or a 'rival' group.

But more than that, solving the puzzles develops figure-ground perception and improves the ability to establish object constancy and size relationships.

In fact, educators have shown that working on such puzzles can

- enhance a child's attention to detail,
- reinforce good work habits,
- increase both word and general knowledge and
- aid in developing self-confidence.
